PROJECTS

Tic-Tac-Toe Game link [GitHub]

- Developed an interactive, fully-functional Tic-Tac-Toe game using core web technologies (**HTML, CSS, and JavaScript**) to create a dynamic and engaging experience for users.
- Focused on delivering an intuitive, easy-to-use interface to encourage user engagement, with smooth transitions and feedback mechanisms that enhance playability.
- Implemented the game logic with JavaScript, managing player turns, detecting winning, losing, and draw conditions, and resetting the game board after each match.

Portfolio Website [GitHub]

- Created a fully responsive and mobile-optimized layout with HTML and CSS, ensuring seamless functionality and aesthetics across all devices.
- Enhanced user interaction through smooth scrolling, animations, and dynamic content loading, implemented with JavaScript to boost engagement and user retention.
- Hosted the website on GitHub Pages (or personal domain), ensuring fast and reliable online access for potential employers and clients.
